

The CODE WIZARDS logo combines elements of wizardry and technology to create a visually captivating and representative design. It takes inspiration from the Nueva Ecija University of Science and Technology’s logo and uses symbols often depicted along with wizardry. Its center component is an inverted triangle, as a symbol for continuous change since a wizard continuously pursues knowledge and wisdom. While the shape (circle) around the inverted triangle depicts unity; therefore, the CODE WIZARDS pursues knowledge and excellence through unity. The logo utilizes logos from various technologies and programming languages namely: Swift, MySQL, Java, Python,
